WORK & LEADERSHIP EXPERIENCE

Two Roads Advisors

Investment Banking Spring Analyst

New York, NY – Remote

March 2026 – Present

- Advised on live sell-side mandate in Enterprise SaaS / MarTech vertical; engagement included a \$3.5M revenue platform with 73% gross margins and 34% contribution margin, with durable ARR, customer concentration, sales efficiency, and retention as core valuation drivers
- Build and refine financial analyses and operating models to evaluate company performance, buyer fit, and valuation ranges for founder owned and private equity backed businesses

Wells Fargo Securities

Investment Banking Summer Analyst, ECM TMT Group

New York, NY

June 2025 – August 2025

- Supported execution of Figma IPO and Mobileye follow-on by drafting ECC memos, analyzing company financials, and preparing slides; partnered with coverage to assess valuation drivers
- Conducted market and company research using FactSet, AlphaSense, Dealogic, PitchBook, and RenCap to produce shareholder momentum analyses, peer comps, and market backdrop updates that informed strategy and client recommendations
- Completed summer valuation project, conducting comps and intrinsic analyses to estimate firm value; presented findings to senior bankers and benchmarked against actual transaction outcomes

Arcadia Capital

Investment Banking Fall Analyst, Technology M&A

Miami, FL

October 2025 – November 2025

- Developed conceptual understanding of SaaS valuation frameworks, analyzing how key metrics including NRR, GRR, LTV, and LTV/CAC ratios drive software company multiples
- Collaborated directly with bankers on live technology M&A transactions, contributed to valuation analysis, buyer targeting, and preparation of CIMs and investment memos

Student Managed Investment Fund (SMIF)

Analyst, Technology Team

Coral Gables, FL

August 2025 – January 2026

- Performed comparable company and DCF valuations to assess intrinsic value and transaction multiples for assigned equities, including analysis on Fabrinet, revenue expansion driven by growth sustained through telecom components critical to AI infrastructure
- Partnered with team to manage \$2 million long-only equity and ETF portfolio, presented findings to faculty and peers to drive real-capital allocation decisions, technology comprised ~47% of portfolio
